

# SPE Connector with Press-Fit & SPE Plug

Interplex is a key supplier for many interconnect solutions and we apply our technical expertise, product application knowledge and manufacturing technologies to support the enablement of IIoT revolution through new product initiatives in the Single-Pair Ethernet (SPE) arena.

As a member of the SPE Industrial Partner Network, we are committed to supplying a range of SPE products, such as IEC 63171-6 compliant connectors and receptacles.

0.2 nanoEON Press-Fit

IEC 63171-6 Compliant

SPE Plug

## Our SPE Competencies

- IEC 63171-6 compliant IP20 & IP67 connectors
- Integrated 0.2 nanoEON Press-Fit with IndiCoat™, a whisker mitigation plating technology developed by Interplex
- Customizable to various pin densities, or configurations with cable options
- Innovative custom solutions for unique end applications

INDUSTRIAL  
PARTNER  
NETWORK

## Applications

- Sensors & Actuators
- Control Units

## Industries

Industrial & Infrastructure

Transportation

Medical & Life Sciences
